TECHNICAL DATA SHEET

Transparent radiator

Almost invisible infrared heating for living rooms, bedrooms and offices

Invisible heat, visible comfort

PRODUCT DESCRIPTION

The HERGA transparent radiator brings together design, efficiency and well-being in a practically invisible solution. Thanks to non-luminous infrared technology, it gives direct heat to people and objects, creating a pleasant feeling of comfort from the very first moment without having to heat all the air in the room. Installation is quick and simple: it can be hung or stuck to the wall without taking up any useful space. And its surface makes for safe, comfortable everyday use in any setting.

MAIN FEATURES

- ✔ Non-luminous infrared: direct heat to people and objects
- ✔ Hangs or sticks to the wall, taking up no space
- ✔ Under the window it stops the cold and wall damp
- ✔ White, black and wood finishes
- ✔ Manual switch with WiFi, digital thermostat or WiFi thermostat
- ✔ 📱 Free Tuya or Smart Life app: easy, from your phone
- ✔ 10-year warranty
